HANDLE-IT®

Semi-Automatic Stretch Wrapper

Product Features

- Auto Film Cut at the end of the cycle-improving throughput
- Brushless AC motors
- Photocell for pallet height detection or custom set height
- Stop at home position
- 3 working modes: semimanual, semiautomatic, or fixed height
- Acoustic warning at the cycle start and stop
- On-board diagnostics
- Wrapped pallet counter
- Braked turntable at end of cycle
- 3 year warranty

Digitally controlled power film pre-stretch (250% standard) for dynamically controlled film efficiency and improved load containment, both lowering consumable cost and keeping your product safe and secure

Available Options

- | | | |
|------------------------|----------------------------|---|
| • Integrated Scale | • Remote Control | • Film usage diagnostics |
| • Loading Ramp | • Top Press | • Auto attach and wipe |
| • Roping System | • Photocell for Dark Loads | • Adjustable Power Pre-Stretch up to 600% |
| • 118" Max Wrap Height | • Cold Environment Kit | |

Responsive and user friendly PLC controls:

- Fully customized wrap cycles
- Up to 32 programmable cycle recipes
- 6 quick select buttons for quick navigation
- Over 50 different parameters with variable film tension and speed controls

USB port allows upload and download of data with statistic reporting and system diagnostics

Durable Construction with heavy gauge tube steel, 8 heavy duty support rollers, and chain drive system for rugged reliability
