

## PNEUMATIC SCISSOR LIFT TABLES

### Features and Benefits

- Standard air level hand or foot controls at no extra charge
- Optional pedestal mounted controls for more controlled operation
- 24" travel on all pneumatic scissor lifts for raised positioning from 32" to 34"
- Tables require only 85 psi at 15 cfm of factory air
- Oversized platforms available to 48" x 60" to accommodate many applications
- Structural steel angle on all floor mounting sides for greater strength
